Skills

JavaScript, TypeScript, SQL, Express.js, NestJS, MongoDB, PostgreSQL, Docker, Nginx, Git, AWS, Firebase, Stripe, Agora, WebSockets, Webhooks

Experience

LaunchBox Pakistan | Karachi

Mid-Level Backend Developer | 05/2024 - Present

Developed REST APIs for 6+ applications (fitness, dating, CRM, social media, subscriptions)
Integrated Stripe Connect, Apple/Google in-app purchases
Built CI/CD pipelines using GitHub Actions
Managed deployments with PM2 on EC2; used Firebase for auth and notifications
Delivered the fastest backend system in the company

Indus Valley Technologies | Karachi

Junior Backend Developer | 08/2022 - 04/2024

Led backend for 5+ apps including ride-hailing and food POS systems
Used NestJS, PostgreSQL (TypeORM, Prisma), Firebase, and Google APIs Deployed multi-app (NestJS + Next.js) servers using Nginx and PM2
Set up domains via Cloudflare, SSL with GoDaddy
Grew from intern to role backend dev responsible for all server-side operations

Projects

Boat Management System - Multi-role system with task assignment, employee roles, and permission control - Used Express.js, MongoDB, Firebase, and Stripe

Fitness & Nutrition App - Admin uploads workouts and meals from the web portal - Users track calories and workout history via mobile app

Dating App – Real-time chat, profile matching, and Agora-powered live video

Social Media App - Features include posts, likes, comments, stories, and Instagram-style lives

Education

Usman Institute of Technology, | Karachi

Computer Science | 08/2024

Strengthened computer science expertise through university seminars, workshops, and coding competitions. Overcame limited resources with self-motivation, gaining solid knowledge in data structures, algorithms, databases, networking, and software engineering. Completed internships resolving real-world technical challenges and developed an AI-powered image processing system for sugarcane disease detection using TensorFlow and Python as a final year project.
